ZIPAMICRO

smart home server

quick-start guide

recommended to have it constantly available, it is only necessary to have this connection available during the system setup, and for controlling the system from outside of your local network. All other activities including local control, scenes, rules, alarms and so on, Zipato Server is processing independently of the Zipato Cloud and Internet in general.

Zipato' wide range of unique features and possibilities makes it one of the most popular control and automation systems in the World.

MEET THE ZIPAMICRO

Zipamicro is the smallest in the range of Zipato' devices which are based on Zipato Server software. It has Z-wave radio module built inside which enables connection of any Z-wave and Z-wave plus compatible device. Furthermore, it features both WiFi and Ethernet IP interface which enables easy and reliable Internet connection, as well as connecting various popular IP based smart devices (such as Nest, Philips Hue, Sonos, etc...).

Since Zipamicro runs the Zipato Server software, it enables all of it's smart features and possibilities. Additionally, Zipamicro can run the Zipato Server PRO and even become a part of Zipato Server Network. More info about Zipato Server PRO and Zipato Server Network you can find on www.zipato.com.

CORRECT DISPOSAL OF BATTERIES IN THIS PRODUCT

(Waste Electrical & Electronic Equipment)
(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive 2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.
